

## How we do it

It's as easy as 1-2-3! and we're always ready to give a helping hand.

### Step 1 Choose your ceramic piece

There are many pottery designs to choose from at Slap 'n DASH. Whether you're looking for a dinner plate, a vase, a fairy, or a dinosaur, we've got all sizes and shapes of pottery to paint. We're also happy to special order anything available in our catalogues.

### Step 2 Pick your design & Select your colour

Bring an idea from home, create your own design from scratch or choose from an extensive range in our ideas books. We have designs to match every mood, season and occasion. Look at our gallery pages for some inspiration.

There are lots of bright colours to choose from. Our colour samples show you what each colour will look like once it's fired in the kiln. All our colours are compatible with each other, so you can mix and match our standard colours with our specialty glazes. Try our "bumpy" paints for a puffy accent, outlining bottles for creating a fine line, and our glaze pencils for a natural "penciled" look!

### Step 3 Create your masterpiece.

Draw free-hand or use tracing paper to transfer your design onto the ceramic piece. All pencil marks burn off in the kiln so don't worry about mistakes at this stage.

Apply as much paint as you like and stay as long as you wish. It's best to plan at least two hours for your painting experience. This is all included in the studio fee. Our staff members are experts in the painting process, and they're there to help you with general instructions, painting techniques, and colour suggestions.

Once you've completed your masterpiece, we'll fire it in our kilns and have it ready for your collection in 5 days. If you need it sooner don't hesitate to ask and we'll do our best. If you have not finished your painting at this stage we can keep it in a safe place for you to complete at your next studio session.
